Big Apple Magnetic Fields Conference

Friday, January 25, 2019

<u>Session 1 Brandon Hensley: Chair</u> - 2nd flr Auditorium (9:00 AM - 10:40 AM)

time	[id] title	presenter
9:00 AM	[22] Mark Vogelsberger: Simulating galaxies and magnetic fields with IllustrisTNG	
9:20 AM	[23] Eric Koch: Turbustat- Python based turbulence statistics codes	
9:40 AM	[26] Alex Lazarian: Gradient Technique: new way to trace magnetic fields	
10:00 AM	[24] Ka Ho: Using Velocity Gradient Technique in tracing 3D magnetic field	
10:20 AM	[25] Yue Hu: Tracing Multi-Scale Magnetic Field Structure Using Velocity Gradient Technique in Giant Molecular Clouds
