

2023 SDSS-V Collaboration Meeting

Thursday, August 3, 2023

Session 13 - Gerald D. Fischbach Auditorium/2-GDFA (1:30 PM - 2:42 PM)

-Conveners: Maddie Lucey

time	[id] title	presenter
1:30 PM	[71] BOSS Net: self-consistent model of determining stellar parameters for optical spectra in SDSS-V	LLANES, Diego SIZEMORE, Logan
1:42 PM	[72] Studying the magnetized protoplanetary disk winds with optical spectroscopy of forbidden emission lines	NEMER, Ahmad
1:54 PM	[73] Exploring the Origin of the Distance Bimodality of Stars in the Periphery of the Small Magellanic Cloud with APOGEE and Gaia	ALMEIDA, Andres
2:06 PM	[74] Studying Star Clusters in the Magellanic Clouds using the LVM	DIAS, Bruno
2:18 PM	[76] Everything you need to know about The First Dredge-Up	ROBERTS, Jack
2:30 PM	[77] Extreme Variability in Quasar Broad Line Profile Shapes in SDSS V	FREDERIC, Sara
