Outflows and kinematics - 17th Floor (9:40 AM - 2:20 PM)

time	[id] title	presenter
9:40 AM	[11] Kassin – Semi-resolved winds	
10:20 AM	[12] Gazagnes – Interpreting spectroscopic observations with RHD simulations	
10:45 AM	Coffee Break	
11:15 AM	[13] Heckman – How Well do Models and Simulations Match the Observations of Galactic Winds?	
12:00 PM	[14] Discussion	
1:00 PM	Lunch	
2:00 PM	[15] Barrientos – Generating mock spectroscopy for simulated galaxies with SKIRT. An exploration of the biases in the recovered kinematics
